DORMOUSE TILLER	Presented by Peter Lambie for Seamanship – from Past Commodore The late Eve Woodyear’s boat “Dormouse”	Goes back to Race 3 and a lost rudder on Pinball Wizard – To compound the problem they were on a Lee Shore heading backwards to Castle Point – then to add insult to injury they couldn’t get the main down and had to send Robbie Southwell up the mast to cut the halyard. We understand John Dudley (The Owner) wasn’t on board. Race control despatched a rib and after a bit of stringing her up with forward back springs and other technical stuff she was towed back into Cowes. A new rudder was rapidly born in Holland and was back and fitted in time for RIR.	For his help on the Rib and managing the tow home which could have ended in disaster on Castle point the Evening Race Committee would like to thank and award the trophy to one of the ISC’s highly regarded Rib drivers and up and coming Principal race officers – Ladies and gentlemen – Richard Palmer
